

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. PL98-7-000]

Technical Conference on Year 2000 Issues for the Oil and Natural Gas Sector; Notice of Technical Conference

August 10, 1998.

Take notice that the Federal Energy Regulatory Commission (FERC) is sponsoring a technical conference to be held on Friday, September 18, 1998, at 9:00 a.m., 888 First Street, NE., Washington, DC 20426 in the Commission meeting room. This conference is being held as an outreach for the President's Council on Year 2000 Conversion's (Council). The Council has designated FERC as the lead agency for the oil and gas sector of its Energy Working Group. The conference will be hosted by the Natural Gas Council (NGC) and American Petroleum Institute (API). All interested persons are invited to attend.

This technical conference will focus on promoting awareness of Year 2000 (Y2K) issues and coordinating information sharing on testing and solutions among companies in the oil and natural gas industries rather than internal solutions of individual companies.

The industry associations that are part of the Council's oil and gas sector will present preliminary results of a Y2K readiness survey of the oil and natural gas industries. This survey was developed by the oil and gas sector of the Council's Energy Working Group, and will be repeated quarterly. The industry associations are distributing the survey to individual companies. The industry associations and umbrella organizations (such as NGC, API, and Gas Industry Standards Board) are compiling and aggregating survey results so that individual company responses remain anonymous. It is these aggregated results that will be presented at the conference. The Council's oil and gas sector group is also developing a Website that will be linked to the Council's Website (www.y2k.gov), where aggregated survey results and other related information will be posted and made available to the public.

A more detailed agenda will be published before the conference. The public may participate during question and answer periods, but no witness panels will be established. Written comments are welcome at any time and should reference Docket No. PL98-7-000. For additional information, please contact Kathleen Sherman at 202-219-

2834 or by electronic mail at "kathleen.sherman@ferc.fed.us."

If there is sufficient interest from those outside the Washington, DC, metropolitan area, the Capitol Connection may broadcast the conference LIVE via satellite for a fee. If there is interest in the Washington, DC, area for this program or you need more information about the national broadcast, please call Shirley Al-Jarani or Julia Morelli at the Capitol Connection (703-993-3100) no later than September 15, 1998. In addition, National Narrowcast Network's Hearing-On-The-Line service covers all FERC meetings live by telephone so that interested persons can listen at their desks, from their homes, or from any phone, without special equipment. Billing is based on time on-line. Call 202-966-2211 for further details.

David P. Boergers,

Secretary.
